1. Applicant's representative is thanked for his assistance in discerning that the examiner was in fact acting on the correct set of claims. Claims pending are 5-6 and 14-23. Claims 1-4 and 7-13 have been cancelled.

The invention further provides for a frozen confectionery product wherein the brittle frozen confectionery product comprises the antifreeze protein, which alternates with ice cream layers, which do not contain antifreeze proteins. The prior art fails to teach or suggest using a fish AFP Type III in frozen confectionery products wherein the product has a brittle texture and has an ice crystal aspect ratio of more than 1.9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
